

Holdingham Lodge is a specialist supported living service which has been developed to enable people with learning disabilities to live happy, healthy, safe lives and to achieve their full potential. The team at Holdingham is able to support individuals with diverse needs including those with:

- **Learning Disabilities**
- **Autism Spectrum Conditions**
- **Physical difficulties**
- **Social, emotional or communication difficulties**
- **Behaviours that challenge**

Our experienced and well-trained staff provide individualised care and a clear Positive Behaviour Support pathway to promote independence and choice. We recognise that a good quality of life, an excellent quality environment and building self-esteem are paramount for people with complex needs. There is a universal commitment within the whole of Glenholme to treat those we support and their families with dignity and respect.

Holdingham Lodge is a development of well-appointed studios and one-bedroom and two-bedroom flats, providing greater independence and the opportunity to develop life skills. Holdingham Lodge provides a safe environment for adults who may find mixed-use developments too challenging but need 24 support.

The ground floor is disability-friendly, each flat has level floor access and widened doors for individuals using wheelchairs. Each has kitchen worktops that are height adjustable. Further personalisation can be made following an assessment of individual requirements. Ground floor flats have personal gardens and first-floor flats have a communal garden.

The service also offers access to a spacious warm communal flat where tenants can go if they wish to socialise or need a bit of extra support 24/7. Holdingham Lodge is located on the outskirts of Sleaford, within walking distance of the high street with shops, cafes, restaurants.
